

ADDITIONAL NEEDS POLICY

Supporting children with additional needs requires Educators to extend upon the strategies they already use in providing quality education and care for children. It is imperative for Educators to develop a comprehensive understanding of each child’s interests and abilities and implement an inclusive and equitable learning environment that supports their individual needs.

Inclusion is stipulated in the Early Years Learning Framework as *‘taking into account all children’s, social, cultural and linguistic diversity (including learning styles, abilities, disabilities, gender, family circumstances and geographical location) in curriculum decision making processes.’* Belonging, Being and Becoming (2009) p. 45.

Our Service will work in partnership with families and other professionals to ensure specific consideration and adaptations allow children with additional needs access and participation and achieve positive learning outcomes.

PURPOSE

To be responsive to each child, irrespective of their additional needs and abilities. We aim to provide a supportive and inclusive environment that sanctions each child to fully participate in their education and care at the Service. Educators will remain encouraging, unprejudiced, and supportive, ensuring that all children are treated equally and fairly and have the opportunity to grow and develop to their individual potential.

SCOPE

This policy applies to children, families, staff, management, and visitors of the Service.

According to the Inclusion Support Program Guideline (Australian Department of Education, Skills and Employment) March 2020, there is no national definition of ‘additional needs.’ This term is used within the policy to describe children who may need or require specific considerations or adaptations to participate fully in our Early Childhood Education and Care service.

Additional needs may include children who:
